

CCTV Policy

CCTV is used by Ebenezer Baptist Church to monitor the platform and surrounding areas for the purpose of protecting the worship equipment stored there.

Any recorded footage will be viewed only by Church Trustees, but may be passed to the Police if criminal damage is identified.

Images will be deleted after viewing unless unauthorised activity is detected, in which event they will be retained until suitable action has been taken and concluded.

Access to the images is controlled by password.

If you wish to see any images then please make a "Subject Access Request" to our GDPR administrator via email, gdpradministrator@rockofhelp.org.uk, or speak to one of the leadership team.
