The Spring Tide Vision Each time Jesus spoke a message to one of the seven churches in the book of Revelation, he urged them to hear what the Spirit was saying to the churches. The wonderful thing is that Jesus never changes! He is still passionate about his church and is still speaking words of life to today's Church too. So the Spring Tide Conference is a special time for followers of Jesus to especially listen to what God is saying by His Spirit and this year from 25th-27th April we have a great opportunity for the church as a whole in our area to gather as one in God's presence and digest what He is saying by the words of Jesus and the ministry of the Holy Spirit. We seek to honour Jesus, hear His words and set course to follow Him afresh.

We want to thank all those who have sought God's plan together for this year's Spring Tide Conference. Thank you to all for your prayers, planning and practical help, and especially our guest speaker Damilola Makinde. Spring Tide Conferences is a member organisation of the Evangelical Alliance and adopts the EA Statement of Faith,

MAF is planning to use a floatplane to link isolated people to essential services

In the heart of East Africa lies Lake Victoria, the largest lake on the continent. It stretches far and wide, connecting Uganda, Kenya and Tanzania. Scattered across this vast expanse of water are some 3,000 islands.

'Their access to education, health services and the Gospel is very limited. That is why we would like to have a floatplane – an amphibious aircraft – to serve these communities and transform lives.' MAF is currently seeking to purchase a floatplane to bring help, hope and healing to people on the island communities of Lake Victoria.

Together we serve, together we fly.

Please pray

For our ability to purchase docking on Lake Victoria, buy a suitable floatplane and organise training for a pilot

For the connections that MAF will be able to build with the local communities there.

For the safety of people currently travelling by boat while preparations are underway to obtain a suitable aircraft MAF in Uganda in order to provide islanders with a safer way to travel.
